Do you want to know how to manage chronically absent employees? Here is our detailed guide to help you manage employee participation issues. 3. Payment structure and billing of employee attendance monitoring help you record your participation data so you can pay your team thoroughly for their billable working time. Participation sheets can also be used to calculate how many days and hours spent your team for each project for various customers. In this way, you can calculate how many billable hours were spent on each project and bill your customers for the right amount. What are the limits of employee frequency sheets? In the past, employee participation data was compiled manually on a piece of paper or diary on board, which was a bulky process full of errors. Over time, the regular participation sheet has turned into a digital presence module or a time card. But these new sheets also have their negative sides. Here are the main limits of employee frequency sheets: 1. Difficulty to monitor the leaves and overtimes with this method, employees will have to calculate their extraordinary, mature holiday times, sick days, etc. Or should they constantly ask you or a human resource representative to calculate it for them. Not only is this work high intensity of work, but also the possibilities of making a mistake are high. If you use an automated system instead, this information would be accurate and readily available for employees by clicking a button. In addition, the state and federal labor laws on congedes and overtime always change. With a manual system, all errors committedThe calculation of the extraordinary and the leaves can land your company in hot water. 2. Lack of functionality of evaluation of the productivity using a frequency tracker sheet to determine the production can be a game of fortune teller. How come? These sheets reflect only if an employee worked or not on a certain day, day, not the tasks they worked on ¢ÂÂÂ so you¢ÂÂÂll have to figure that out for yourself. Attendance sheets don¢ÂÂÂt show how productive employees are when working on specific tasks or projects. Nor do they provide reports on how they spend their time at work. To get a clearer picture of productivity, you¢ÂÂÂd need to find out how many hours they spent on doing tasks and projects. You¢ÂÂÂll also have to see whether they can work without any distractions like social media. 3. Payroll and Invoicing Challenges Attendance sheets (Excel spreadsheet, PDF, or Word-based) are only as accurate as the information filled in.Ã Â If the times recorded in that Excel template are inaccurate, payments will also be incorrect.Ã Â Additionally, dishonest employees can enter the incorrect hours on purpose.Ã Â There¢ÂÂÂs simply too much room for human error. Mistakes, whether intentional or not, can lead to incorrect payroll and invoicing. This can affect the profitability of the company in time.Ã Â While an employee attendance record template can be useful for tracking employee attendance, it can become a burden to fill manually every day. Additionally, the old-fashioned way of calculating salaries with a calculator just takes too much time. So, how can you make attendance tracking and payroll easier? While you can hire a full-time employee to manage your attendance records, we¢ÂÂÂll offer a more cost-effective solution to manage employee attendance.Ã Â The Best Alternative to Employee Attendance Sheets ¢ÂÂÂ Time Doctor It¢ÂÂÂs evident that attendance sheets have their limitations. These issues can have larger implications for your business¢ÂÂÂ productivity and profitability.Ã Â Thankfully, there¢ÂÂÂs a better solution to tracking attendance ¢ÂÂÂ time and attendance tracking software. These help you record attendance and evaluate the productivity of your team.Ã Â One of the best productivity solutions you can use for business is Time Doctor. B. Report of the Activity card another report that can help you manage every time the presence record is the relationship of the activity tab. This report shows the invoicable hours that an employee worked for a day or several days. Here are some of the additional relationships that you can receive in Time Doctor: time of use of the time: it provides a distribution of the time spent by an employee for each activity for a period. Daily report in terms of time: see how you or an employee have spent time during the working day. Report on the use of the web and apps: view the websites visited by an employee and the time spent on them. Report on the use of the time of poie: it helps you determine if an employee is spending too much time on distraction sites, for example social media websites such as Facebook or Twitter.Projects Report: provides a breakdown of time spent by a member of the Team in a project or a chosen task. 3. Dashboard of production when accessing your Doctor Time account, the first page you will see is the dashboard. If you are interested in the least of the simple registration, you can see which employees work and what they "Ã Â Â is working in real time with this dashboard. You will be able to view the information on the participation and the number of hours that have been worked for the day, week and month. 4. Working hours with working hours function, you can set programs and shifts for your team and easily monitor those who were late/absent for a turn. Here is an example of how works: if you set the turn/program to start from 8:00 to 16:00 from Monday to Friday: the members of the team that start monitoring their time at 8 or before are marked as "prepared, ã ¢ ,Â Â Â Â Â Â â ¢ The members of the team that begin to monitor the Team members who do not follow time on that day are marked as "absent" are marked as "partially absent". This ". Way, you can keep track of the participation without leaving the desk to see if the employee is present or absent. work off-site or whose jobs involve being out of the office (e.g., sales reps who have to meet with clients), Time Doctor has a useful GPS tracking feature for Android devices.Ã Â Once you enable the feature, you also get GPS tracking reports that show your team member¢ÂÂÂs real-time location.Ã Â This allows you to keep accurate attendance information even if employees aren¢ÂÂÂt based in the office.Ã Â Note: To protect employee privacy, the GPS tracking feature only records your locations when you¢ÂÂÂre working and not for the entire day. It¢ÂÂÂs also a good idea to inform employees in advance that their location will be tracked during working hours.Ã Â 6. Improved Payroll Management While many small businesses still use Google Sheets or Microsoft Excel templates for recording payroll information, this way is inefficient.Ã Â With Time Doctor, you can say goodbye to Microsoft Excel based staff attendance sheets and complicated payroll formulas. Here¢ÂÂÂs you can automatically generate payroll for your team: Choose a payment rate for each team member.Ã ÂSelected the payment currency and method for each user.Ã ÂThe information you enter for your team, such as payment rate, currency, and method, will be saved for your next payroll, so you won¢ÂÂÂt need to enter it again.To make batch payments, your payroll can be exported as a CSV file and uploaded to PayPal or Wise, formerly TransferWise.Ã Â Wrapping Up Accurate attendance tracking is crucial to all businesses ¢ÂÂÂ not only for payroll purposes but also for evaluating employee productivity.Ã Â You could use the employee attendance sheet templates we¢ÂÂÂve provided.Ã Â However, an Excel XLS, PDF, or even a Google sheet attendance template is not a reliable way of tracking attendance ¢ÂÂÂ since you have to manage them manually. A time tracker and productivity management software like Time Doctor can help you overcome the limitations of attendance sheet templates.Ã Â This way, you can track And get precious information on how your team spend their working hours. So why not to enroll in Time Doctor today and solve presence management problems today? Liam Martin is the co-founder of the Time Doctor, one of the main time monitoring software in the world for remote teams. The large remote work conference in the world is also the co-organizer of remote running running. Sign up for our mailing list and get interesting things on remote work and on the productivity in your email box. We respect your privacy and take serious protection. Seriously.
